DATE: January 22, 2010
 MODEL YEAR: All
 ENGINE: All
 CHASSIS MODEL: All
 BULLETIN NUMBER: ST-03
FILE IN THE STEERING SECTION OF THE TECHNICAL BULLETIN BINDER

POWER STEERING MAINTENANCE ADVISORY

PURPOSE

To advise dealers of the importance of servicing the power steering system.

SERVICE RECOMMENDATION

The power steering system should be flushed and the filter changed as recommended in the maintenance schedule. Severe service conditions may necessitate shorter flush and filter change intervals. Refer to the maintenance section of the appropriate UD service manual for specific instructions for system flushing and filter change.

Note: While servicing medium duty trucks with the metal power steering fluid reservoir mounted to the rear cab mounting bracket, cut the vent hose at a 45° angle and insert it into the rear cab mounting bracket as shown in the illustration below.

THE INFORMATION CONTAINED IN THIS BULLETIN SHOULD NOT BE INTERPRETED AS THE BASIS FOR WARRANTY CLAIMS
